

# CAPABILITY STATEMENT

CCR Group Pty Ltd is leading provider of structural, mechanical and piping services to the mining and industrial sectors in Western Australia. Our successful completion of construction, manufacturing, fabrication and installation works on key projects has given us the experience required to understand your scope and provide our skilled personnel to the task.

With 20 years of history in south-west W.A. we have a wide network of sub-contractors and suppliers we coordinate with to fulfil our client's needs while providing a complete service from start to finish. We are not limited by location and can work with clients across Australia to fabricate and supply steel and piping directly to site.

CCR Workshop in Bunbury W.A

Greenbushes CGP2 Expansion project conveyor and stockpile shelter (2019)

Waste Water Treatment Plant (2019)

## CORE COMPETENCIES

- ✓ **Complete site services**
  - Project Managers, Supervisors, HSE, trades personnel, QA/QC
  - Procurement and logistics
  - Planning and scheduling
- ✓ **Construction**
  - Industrial and mining
  - Tilt panel erection
  - Steel frame
- ✓ **Site maintenance**
  - Day-to-day site maintenance
  - Shutdowns (incl supervision and qualified personnel)
  - Asset management
- ✓ **Fabrication and manufacturing**
  - 50m fabrication workshop
  - Coded boilermakers, welders and fitters
  - Steel, aluminium, HDPE
  - Traceability, NDT, QA/QC
- ✓ **Labour hire**
  - skilled boilermakers, welders, fitters, riggers, painters, scaffolders, trade assistants
- ✓ **Equipment hire**
  - 80t all-terrain crane
  - 20t and 25t franna
  - 2.5t telehandler
  - Scaffold
  - Mobile workshops and tooling containers

## RECENT WORKS

- ✓ **Construct new Waste Water Treatment Plant**
  - Client - Talison Lithium
  - \$6.5m project (completed July 2019)
  - 6 month duration
  - Lead contractor for structural, mechanical and piping installation works
  - Fabricate and supply CSR, HDPE and rubber lined piping
  - Zero injury project
- ✓ **Construct and install new rotary gas fired dryer**
  - Client - Global Advanced Metals
  - \$500k project (completion by December 2019)
  - 12 week duration
  - Lead Tier 2 contractor for structural, mechanical and piping installation works
  - Zero injury project
- ✓ **Greenbushes CGP2 Expansion project**
  - Client – MSP Engineering
  - Multiple \$1m - \$3m projects (2018/19)
    - i. Construct \$1.5m conveyor
    - ii. Construct \$550k stockpile shelter
    - iii. \$2.3m to install processing equipment incl. structural, mechanical and piping for new tantalum processing circuit
  - CCR Workshop fabricated, supplied and delivered all carbon steel, rubber lined and HDPE piping
  - Zero injury project
